English

Ciao!

*I am Paolo Camerin, and I am an Interaction Designer. I am an explorer always looking for new ways of creating meaningful experiences that help people grow and live a better life.*

## Relevant work experience

**Digital Design Intern at EGGS Design , Oslo**  
2020 (Jan-Jun)

At EGGS Design I have been working as digital and interaction designer, applying, exploring and cherishing my passion and love for technology, tangible interactions and new digital media. There I have learned how to interact directly with the clients in order to achieve the goals that were set at the beginning of the project, always maintaining a direct link with the stakeholders and final users.

**Interaction Design Intern at LEGO System  
Creative Play Lab**  
2019 (Aug-Dec)

At LEGO I worked as user experience designer, focusing mainly on the development of new and more engaging play experiences for children, using new technologies applied to the LEGO System. There I have learned what it means to use electronics and new technologies in order to develop meaningful experiences of a real product connected to international IPs.

**Freelancer**  
2010-2021

Throughout the years I have always tried to work alongside my studies creating websites and doing graphics design jobs as well as video editing, photography and 3D modelling and renderings for private people or companies.

This helped me to stay up to date with the latest software and technologies, always learn something new and try to apply it to real world projects.

**Pizza maker, Agricultural worker, CNC operator and more...**  
2006-2017

Every work its a formative experience and these are not less important than others. They have allowed me to get where I am today and learn a lot about food, nature, materials, processes, people, myself and so much more along the way.

## Education

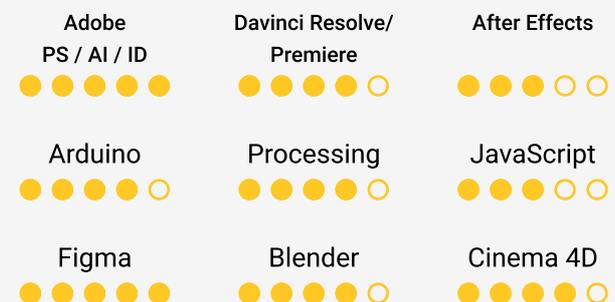

**Interaction Design MFA, Umeå Institute of Design**  
Umeå, Sweden  
2018-2021

**Industrial Design Intensive, Umeå Institute of Design**  
Umeå, Sweden  
2017-2018

**Bachelor in Painting, Academy of Fine Art**  
Urbino, Italy  
2011-2016

**Art School, Architecture Course**  
Treviso, Italy  
2006-2011

## Skills

## Quick three

### Fast learner

I do not hesitate to learn new skills and software's. I believe as a designer it is important to be agile and ready for change. And you can trust me, with or without the need for it I am always up to learn something!

### Home made pizza

Try me.

### Bring it to life!

Working with my hands and creating tangible prototypes is something I have found to be essential in my design process. I work with any kind of material and always try to bring to life my work with the use of the necessary technology.
